

Jacobson Mfg, LLC

C U S T O M E N G I N E E R E D

- Externally Threaded and Non-Threaded Products
- Tubular and Internally Threaded Products

PROVIDING LEADING Cold Formed Fasteners

A Tradition Of Excellence And A Commitment To Quality

Jacobson Mfg, LLC has been providing customers worldwide with the industry's highest quality fasteners and cold formed components since 1978. Since that time, Jacobson has developed a solid reputation as one of the most respected manufacturers of cold formed components in North America. Our quality standards, service, and value are widely valued and relied upon.

Jacobson Mfg, LLC produces a full line of standard and custom-designed threaded and non-threaded components. With a 280,000 square foot facility in Medina, Ohio, Jacobson houses some of the most modern and capable manufacturing equipment and personnel in the industry. Our customer base includes some of America's leading corporations from virtually every industry including, but not limited to:

- Consumer Products
- Agricultural/Lawn and Garden
- Heavy Machinery and Equipment
- Recreational Equipment
- Automotive
- Truck/Bus
- Marine
- Appliance

Custom Engineered Solutions For Your Application

Our experienced technical staff of application and tooling design engineers at Jacobson will evaluate customer applications and requirements in making the necessary recommendations to part design and metallurgy. Upon request, Jacobson will conduct on-site application evaluations and furnish component prototypes as required. Our fully-equipped tool room can provide unparalleled support during the prototype and production process to meet stringent customer timelines and specifications.

Quality And Trace

EDGE TECHNOLOGY ers and Components

State-Of-The-Art Forming Capabilities

Jacobson Mfg, LLC is equipped with forming and secondary processing equipment to produce a broad size range of formed parts.

Tubular and Internally Threaded Products

- 5/32" (4 mm) diameter to 1 3/4" (44 mm) diameter forming capabilities
- Five and six die nutformers and partsformers, with Formax® short and medium stroke capabilities
- Forming loads up to 600 tons
- Secondary roll threading and roll forming
- Tapping equipment capable of sizes to 1" diameter

Externally Threaded and Non-Threaded Products

- 3/16" (5 mm) to 5/8" (16 mm) diameter, up to 8" (204 mm) in length forming capabilities
- Multi-die, multi-blow capabilities: One die-two blow to four die forming equipment
- Secondary roll threading, roll forming, slotting, pointing, trimming, re-heading, and assembly capabilities for value-added products
- Wide range of materials for forming: low and medium carbon steels, alloy steels, 300 and 400 stainless steels, brass, aluminum, and bronze

Ability From Start To Finish

Jacobson Mfg, LLC controls quality and traceability in our third party accredited quality system. From receipt of steel directly from the mill to on-time shipment of product to the customer, Jacobson overlooks nothing in our quest for total customer satisfaction. Jacobson's state-of-the-art testing laboratory offers customers a full range of metallurgical, mechanical, and physical testing with complete documentation available upon request. Jacobson has the capability to meet all appropriate ANSI, ASME, ASTM, IFI and customer specific specifications as required. Jacobson also offers the latest in laser and vision sorting technology for demanding automated assembly applications.

Jacobson Mfg, LLC is ISO/TS16949:2002 certified, is accredited to ISO/IEC17025 by the American Association for Laboratory Accreditation (A2LA), and its environmental management system is certified to ISO 14001.

Specialty Services

Jacobson Mfg, LLC provides and complies with the latest technologies in electronic data exchange, inventory control, and delivery.

- Full electronic data interchange (EDI)
- Just in-time deliveries daily/weekly
- Returnable packaging programs
