

# MSD STAMPING, LLC

## Stamping, Fasteners and Assemblies

MSD Stamping specializes in metal stamping, nut insertion clips, wireforming, fasteners, and staking of automotive grade assemblies. Our engineering expertise in the design of components such as specialty nut clips, anti-rotation (self-wrenching nut or bolt) devices and door/hood striker assemblies is unparalleled in the industry. This experience allows us the opportunity to be your technical partner in developing new parts. By being response-oriented, we can get your product to market fast!

### QS 9000 Quality System

MSD is backed by a robust QS 9000 Quality System ensuring PPM's well below industry standards for fastener/assembly manufacturers. Our engineering staff can evaluate your application on-site or internally in our lab facilities. MSD is ISO 14001 certified, and EDI and JIT capable.

### Stamping Capabilities:

- 35 to 300 ton presses
- 72" L-R and 48" F-B die maximum
- Progressive die nut insertion and die tapping capabilities

### Materials:

- Low and medium carbon steel – 1010 – 1074 (stampings)
- Medium carbon alloy wire – 4037 (wireforming)

### Wireforming:

- Twin OMCG wireforming machines

### Staking Capabilities:

- 15 – 60 ton open bed incline presses
- Nut and bolt staking
- Wireform staking
- Rotary table staking

Certified to QS 9000 and ISO 14001.
